

Microsoft 365 & Teams

Solution IP helps organisations meet the challenges of productivity and collaboration whilst aligning technology to their growth strategies. We work with industry-leading technology partners, adding a full-service wrap to deliver networks, IT, unified communications and security that simplifies seamless communication and collaboration.

Why do I need Microsoft 365 and Teams?

Many businesses utilising Microsoft Teams for internal collaboration can now benefit from the ability to make and receive calls by enabling Teams as a full cloud-based UC solution with enterprise grade telephony.

About Microsoft 365 and Teams

A complete, intelligent, secure solution to empower employees.

- MS 365 is the most widely used cloud service by user count
- 155 Million monthly active MS 365 business users
- There are now 500,000 businesses using Microsoft Teams, including 91% of the Fortune 100
- MS 365 subscriptions have been shown to bring a positive ROI within 13 months of investment for SMB's.

What's good about our managed MS 365?

Market leading packages for cloud-based business emails, shared calendars, instant messaging, video conferencing and file sharing.

- Providing Microsoft's productivity suite and unified communications functionality from the Cloud.
- Work from any device anywhere
- Delivered as an OpEx model with predictable costs.
- A resilient, managed service with migration, maintenance and service desk support.
- Based on feature rich easy to use technology that can be customised and simply integrated in to your business.
- Collaboration tool -

Microsoft Teams is the number one collaboration and UCaaS app for many companies. More than just an environment for video calls and sharing content, Teams has evolved to offer everything that businesses need to stay connected in the new age of work.

Bundles available

- Enterprise-grade voice delivered through Teams – audio conferencing, phone system.
